

HT6135

HT6135 is a cast solid silicone available from 0.25mm.

Applications	Gaskets
Product Features	- Potential for pressure sensitive adhesive - Wide temperature range
Markets	Industrial

Typical properties

Product Property	Value	Test Method
Colour	Off White	
Structure	Cast Silicone	
Thickness	0.25 - 3.2mm	
Width (mm)	to 915	
Mechanical properties durometer (Shore A)	33	
Tensile Strength (Mpa)	> 5.5	ASTM D 412
Compression set (%) 70 hrs @ 150°C	< 25	ASTM D 395
Temperature Range (°C)	-55 to 200
