

RF120

A silicone/fabric composite that acts as a radiant heat shield.

Applications	- Gaskets - Seals
Product Features	- Dimensional stability - Fire retardant - Low compression set - Low density - Low smoke/ low toxic gas emission - Potential for pressure sensitive adhesive
Markets	- Aerospace - Industrial

Typical properties

Product Property	Value	Test Method	Footnotes
Colour	White		
Structure	Silicone foam on aluminised glassfibre		
Areal Density (kg/m2)	1.17	ASTM 146	5mm thickness
Thickness	2.5 & 5mm		
Base Foam	HT603A type		
Temperature Range (°C)	-55 to +200		
Width (mm)	to 915		
Fabric Breaking Strength
